PREPARED BY OHLENDORFF & CO. LONDON, ANTWERP, HAMBURG, AND EMMERICH-ON-RHINE. QUARANTEED TO CONTAIN

litrogen equal to 10 per cent, of Non-Velatile Ammonia. Insoluble Guano Phos-THIS Manure is prepared from genuine Peru vian Government Guano. The result of its special treatment is that the Ammonia is fixed, the Phosphates in the Raw Guano rendered soluble, and the Manure brought into the condition of a free dry powder. It loses nothing from exposers to the atmos-

shere, or to the heat of the sun. It is offered to the farmer with a Guarantee of its composition, and is, in fact, the richest and, considering the quality, the cheapest Guaranteed Manure at present in the market. Its fertilising properties are such as will enable the consumer to derive the greatest economical advantage from the use of Guano.

PPLICATION OF DISSOLVED PERU. VIAN GUANO TO COLONIAL  ${f PRODUCE}$ .

SUGAR CANE, - Dissolved Peruvian Guano produces strong and succulent canes, rich in crystallizable augar, without detriment to the productive power of the land, From 3 to cwts, of Dissolved Peruvian Guano per acro, is a good dressing for Sugar Cane. INDIAN CORN.—Three to 4 cwts. of Dis. solved Peruvian Guano per nore exercises a owerful effect upon Indian Com, and largely

norcuses this orop. RICE.—We should strongly recommend the me of 2 to 3 swis, per acre for Rice, for, although irrigation is generally solely relied upon as a means of producing a good crop of Rice, there can be no doubt that, in addition to irrigation, 2 or 3 owta of Dissolved Pergvian Guano per acre will be highly beneficial. TEA. -Judging from the limited experience at our command with regard to the manuring of Tea plantations, we confidently recummend it to planters, whose reports we shall be glad

COTTON .- The yield of Cotton has of late years been greatly increased by the use of gittificial manures, containing a fair proportion of sm monia and much soluble phosphate of lime, potesh, and other alkaline salts. Dissolved Pernyian Guano meets the requirements of the Cotton plant, insamuch as it furnishes all the elements of fertility which are calculated t promote the laxuriant growth of the same. be increase in quantity be inade the chief object. 4 to 5 swta, of Dissolved Peruvian Guano per acre will prove most, advantageous; but greater care be given to the fine quality of the Uctton, the use of 2 to 3 own of Dissolved Peruvian Guano, together with 2 to 3 owts; of

Price-Sl per Bottle, or \$9 per Dozen:

Shanghai, 9th June, 1874.

From Dr. JAMIESON. Shanghai, Sth Jane, 1874. I have seen the formula from which Mesers J. LEEWELLYN & Co.'s new preparation: Bro-DORON is compounded. The ingredients employed are powerful vegetable tonics, and in combination are excellently adapted to stimulate the appetite and promote digistion. BIODORON will, I think, very advantageously replace the usual Sherry and Bitters. R. ALEK. JAMIESON.

From Dr. LITTLE. Messis. J. LLEWELLYN & Co., GENTLEMEN. -The buttle of BIODOBON you sent to me I have tasted, and it is in my following Rates of Premium per Steamers ma opinion a useful stimulant to the stomach Having seen the receipt, I am able to certify w A P.P.A. that its ingredients are all and singly beneficial, and are prepared in a manner which is likely to increase this effency.

Yours mithfully, L. S. LITTLE. Shangbui, June 6th, 1874.

From Dr. HENDEBSON. I have examined a specimen of Broponon sent to me by Mesers. J. LLEWELLYN & Co. for that purpose, and have also been shown by hat will continue to act as Manager at that which can be supplied for any table, the acwhich the preparation is made. It is in my the firm of TATE AND COMPANY. opinion a good stomachio bitter, containing nothing deleterious and being principally com-

posed of ingredients commonly read by medical practitioners in the treatment of various forms. The mode of preparation is excellent, and this a, I believe, the point to which Mesers, J. L. d Co. attach the most importance. EDWIED HENDERSON, M.D.

DEATH. At Bombay, on the 15th June, 1874, J. F. Buxev, Eeq., aged 67 years, of paralysis.

HONORONG, JULY 4ru, 1874.

We did not wider it worth while to repl at length to the article which a short time ago appeared in the London and China Ex-- press with reference to the British Consular Corrice in China, as a few words were sufficient to marcass the mature of the error into which the writer of the article in question had allowed himself to be betrayed. He had simply taken a few exceptional facts-the prominence of which was due solely to their exceptional nature—and founded upon them sweeping assertions against a Service, which upon the whole, is undoubtedly respectable and worthy of esteem. It is not to be denied that occasionally the conduct of gentlemen, in the Consular Service has been such as is open to censure; nor can it be gainsaid that there have been two sad cases before the Courts in which Consular officials have been charged with embezzlement-but neither of these facts is a sufficient basis for sweeping | money to defray the expenses of burying her no nation has tried to prevent our taking mea- Knowing. A young man who had spent a accusations against the whole Service. Among so large a number of men as it is. the highest eneral conduct to be the invariuble rele; and it must not be overlooked refused to let the girl go out till she was paid, been done at Tientsin, the forts at Shanghai peculiar sumrtness; "and what was that P"that those in the Consular Service in China are exposed to temptations which have been too powerful in many instances for men in equally responsible positions outside the Service. The charge, therefore, that was made really amounted to very little, and the placed in the witness bor, and said she was ed on the coast of China, the Chinese authoriinferences which were drawn from the few brought to this Colory to be adopted by some ties, on being apprised of the lact, shall immefacts upon which it was based, were certainly extremely unfair to the Service, considered \_\_generally.

The comments, however, may serve a good

purpose as they have called attention at home

to the system adopted with reference to student

interpreters at Peking, a system which is undoubtedly based upon a wrong foundation. We notice in the number of the above-named paper to hand by the English mail, some sensible remarks by "A China Resident" in which he says he does not besitate to attribute many of the bad habits, and the listlessness which exist in some directions in the Consular Service, to the long period of enforced idleness on the part of student interpreters at Peking. He suggests that if the residence of student interpreters there were strictly limited to two years they would not and time hang on their hands, as eight or ton hours a day is not too much to give blacksmiths. to study for that period. We are disposed to go farther in the application tong, when he saw the land blocked up at each [to dredge the channel] would be only adding of this remedy, and believe that great end—cooks at one and backsmiths at the another cause for the papers are complaining and the remedy, and believe that great end—cooks at one and backsmiths at the another cause of anxiety to it, when passing in Ohina Fire Insurance Company's Shares—\$128 maded to the Opium duties was clear, but the fairly drivers the savages into the mountains. NEGOTIATIONS WITH THE CHINESE. If there is one feature which is especially noticable and marked respect for the dollar It would, indeed, be a curious subject for anequiation, whether his respect for the substantial some which the foreigner brings with him is greater or loss than his disrespect for the foreigner himself. The fact that foreigners pay is, however, now, pretty west who have had an opportunity of coming into contact with us, and it is to this that we have to attribute a great deal in the improvement in our relations which has of late years bean noticeable. Everything connected with the foreigner has been designated by the conpertaining to the devil, with the exception of the dollar. We hear of low shun "devi ships," ktoi-leagu "devil wine," kroiteto "dovil letters or elidracters," that is foreign writings in addition to the fan-qui or foreign devihimself. But when the Chinaman comes to yang-chien br loreign coin. The circumstance our side; and indicates the chief lover which the tomage dues, but it makes no mention of must be used in dealing with the natives redging the chambels. If this proposal was of this coputry. We should follow ALBYconorning their doings, they may be natu. mayshow their opposition in an unpleasant thing to be made out of the strange visitors and their prejudices will very soon be, found to vanish into thin air. Such at least has always been our experience hitherto, and such it is likely to be to the end of the chapter. At Shanghai and the other treaty ports the graves of ancestors were declared to be an insuperable barrier to foreign houses being built, and a decent settlement being laid out But the magic of the Mexican soon put all right in this direction, and many a Chinaman removed the bones of his ancestors with a light heart and a heavy pocket, after coming to an amicable understanding with the powerful. In conformity with their strong instincts for the tangible we find that the only department which has been by the Chinese throught their contact with foreigners has been the Customs. Little as they leaned towards foreign ideas. they were shrewd enough to discover that, by means of a foreign Inspectorate they could largely increase their maritime revenue; and anything clearly to be gained by foreign ap- while this is the case, so long as the officials to be literally a singular instance of a steam pliances, they would be likely to resort to are willing to put down cases in which the bout having been stopped in this manner. them, but they are too near-sighted to see Guilds attempt to exert direct coercion upon how they would be benefited. Mr. Flowers points on how much blinda)id the country round Nagasaki is in the mateder of roads—the universal remark of foreguers ind the opprobrium of Japan. We want a prophet in this country who aball incommtly ry Roads! Roads! Roads! up and down night ad day; nor should it be forgotten that any ailway system without these minor channels conveyance will do little to make the produce of the interior available for trade.

CHINESE GUILDS: The experience and teaching of modern Civi-

inition most certainly prove that all arbitrary storferences with the liberty of trade are preindicionat only to the Commerce of throongtry, but likewise to the pation at large. When privately organized body of men, such as the Foodbow Ton Guild, impose arbitrary rule and enforce still more arbitrarydines upon their felow traders with the full or, at all events the implied concurrence of the Native Authoried, we ministy wonder that such an eminently unfair and ansound system should be perhana not wholey underserved character reconterprise and industry. But if the

Community, we might mest satisfied with a mere expression of amixon entry when, on the contrary, we find that the influence of the Guilds is at times brothet to bear against foreign to intimidate the subjects of independent Treaty. these five chiefs. opium and paid the Juty, but could not get levited by a Community claiming ex-territorial. DISSOLVED PERUVIAN GUANO, PERPARED BY OHLENDORFE & CO. LONDON, ANTWERP, HAMBURG, AND ENME-RICH ON RHINE. GUARAFTEED TO CONTAIN

Nitrogen equal to 10 per cent. of Non-Velatile Ammonia. Soluble | Guano Phos-Innoluble 5 Price, £14 per ton for 80 tons and unwards. under 80 tons. Delivered Free at any of their Depots in the United Kingdom.

It less nothing from exposured the atmosphere or to the heat of the sun. It is offered to the planter with a Guarantee of its composition, and is, in fact, the ichest and considering the revality, the chargest Guaranteed Manura at every in the market. Its fortilizing properties are such as will onable the consumer to derive the

greatest economical advantage from the use of Guso.

APPLICATION OF DISSOLVED REBUVIAN GUANO TO COMONIAL PRODUCE. SUGAR CANE.

Dissolved Peruvian Guano produces heavy cops of well matured Canes, rich in jusce yielding a high proor-tage of Crystallizable Sugar, without detriment to the soil. From 3 to 4 cylin is a good dressing for Sugar Case. A few trials in competition with other manures will soon convince the Planter that no manure yields so larges profit in the increased production of Sugar as Dissived Peruvian Gunno. We should strongly recommend the use of 2 to lewis.

solely rolled upon as a means of producing a good nop of Rice, there can be no doubt that, in addition to irritation, 2 or 3 cyte, of Dissolved Peruvian Guano per new will be highly beneficial. We are confident that Dissolved Peruvian Guino will

be highly esteemed as a manure for Tes, and we recom-mend say B cwie, to the Aero, mixing it first with regetable sakes of dry soil, so as to secure its uniform distri-bution. If the land is very poor and exhausted by previous cropping, more Dissolved Peruvian Guano may to used with advantage.

The vield of Coston has of half years been, pronty in creased by the use of antificial manures, containing a fair propertion of ammonia and much coluble phosplate of lime, potuable there alkaling a lime. Discoved Pureview Guano meets the requirements of the Cotton plant, in assumed as it furnishes all the elements of fertility which are calculated to promote the luxuriant growth of the QUEEN INSURANCE COMPANY:
